

Aerodynamically engineered dart point cones

Eliminates Dart-on-Flight Deflections

"I can't believe how effective these Trident 180's are at reducing my dart-on-flight bounce-outs and extending the life of my flights"

Dennis "THE MENACE" Priestley

Worldwide Patents Pending

Eliminates the Impact Zone

Key Features

Reduced Deflections

Trident 180[®] eliminates the "Impact Zone" on the majority of darts, reducing bounce-outs by up to 50%

Higher Scoring Averages

Put simply, with less darts on the floor you WILL score more

Enhanced flight protection

Trident 180[®] dramatically reduces impact damage on flights extending flight life by up to 6 times

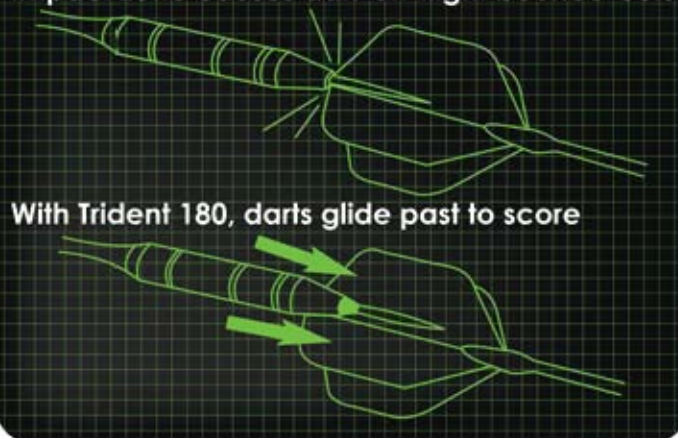

Performance

Trident 180[®] improves aerodynamics, simple to fit, durable and at only 0.008 grams doesn't affect balance

Market

With tens of millions of darts in use worldwide Trident 180[®] is the golf tee of the darts world

Impact zone causes dart-on-flight bounce-outs

With Trident 180, darts glide past to score

Improved aerodynamics

What the Tour-Pro's say

Dennis Priestley

"With so much prize money at stake, one bounce-out could be very costly"

Mark Webster

"The benefits of using the Trident are unbelievable! I now can't imagine playing without them"

Phill Nixon

"I tried them, I love them and I now use them"

Trina Gulliver

"I've always asked for a way to take the edge off my darts, and so you can imagine how happy I am"

Andy Fordham

"My darts bounce-out rate is definitely lower"

Jamie Caven

"I'm really technical when it comes to my darts and these little cones are superb"

Alan Tabern

"I actually counted my bounce-outs, I got less with Trident 180's"

Tony Eccles

"I got my hands on a set and tried them out, now they have a new home right at the end of my darts"

Mitchell Clegg

"These little rippers get my 100% approval from down under, as I use long points and often hit the flights on the way in"
